India, open to remote

EXPERIENCE

EngXlab

Design Engineer

Jan 2026 - Present

Working across design and code at a Mumbai design and software studio, on web, SaaS, Web3 and AI products. Closing the **design-to-development handoff gap** by building production-ready UI directly, so projects ship faster.

Independent Practice

UI/UX Designer & Frontend Developer

Jan 2022 - Present

Designing for clients in India, the USA, Russia and Sri Lanka across AI, Web3 and SaaS. Delivered **20+** end-to-end projects, from dashboards and admin panels to landing pages, with consistent **4.5-star** client feedback.

EISolve IT

Product Designer

Jan 2025 - Jan 2026

Designed and prototyped client interfaces in **Figma** and supported their build in **React** for an IT consultancy with global clients. Refined layouts through user testing and client feedback, and improved internal tools.

Bio-Field Power Platform (IIT Ropar)

UI/UX Designer & Frontend Developer

Sep 2024 - Jan 2025

Designed and built a **cross-platform AgriTech app** that connects farmers with industries buying bio-waste. Ran user research and flow mapping, then implemented the frontend with an accessible, low-tech-friendly UX for farmers.

Ignition Nest Labs

Product Designer

Dec 2023 - May 2024

Delivered UI/UX for **5+** startup MVPs at an incubator for early-stage founders, covering onboarding, dashboards and mobile apps. Raised product engagement by **25%** with an onboarding redesign and cut design-to-development cycles by **30%** with a shared design system.

PROJECTS

SOUL Clinic

Brand, Website & CRM, 2026

Created the brand, website and a role-based CRM for a Mumbai hair and skin clinic, replacing paper records. Processed **₹15L+** in revenue, used daily by **12 staff**.

Knowledge Hub, Yield.xyz

AI Integration, under NDA

Designed an AI layer that connects **seven internal tools** into one searchable knowledge hub.

eVegah

EV Mobility, Concept, 3 months

Concept redesign of a shared EV platform for booking, routing and charging, with a **scalable design system** and prototype.

Axons Mobility

Connected Fleet Platform, 2025

Designed the web platform for a **shared mobility and connected fleet** service, shipped in 2025.

RDM Token

Web3 Token Platform, 2025

Designed the **official website** for a decentralized token ecosystem, from information architecture to the shipped site.

EDUCATION

Parul Institute of Technology

2021 - 2025

B.Tech, Computer Science & Engineering

Vadodara, Gujarat

Infosoft Computer Education

2023

Post Graduate Diploma in Computer Applications (PGDCA)

Ankleshwar, Gujarat
